

**In the memory of
Dr. U.Y. Rege**

We regret to inform the sad demise of our member Dr. U.Y. Rege. He passed away after illness for quite some time.

After doing graduation in Food Technology at UDCT, he pursued his studies and obtained his doctorate at Oregon University. He worked as a scientist at HLL (now HUL) and R& D Manager at Raptakos, Brett and Co. He is one of the pioneers of nutritional products and Infant formulae in India. With his knowledge of basic food science and industrial experience he has been one of the early Food Products consultant. His passion and zeal for work was there till the end and he was very active till he was in his late eighties.

He was very friendly and pleasant person. He was Director of Dr. Rege's Food laboratories who are our members since 2008. Our deepest condolences for the loss of such a dynamic and wonderful person.
